

Accessibility statement

The Ministry of Cohesion and Regional Development (MCRD) is committed to make the website www.si-hu.eu, Interreg Slovenia-Hungary 2021-2027 accessible in accordance with the Accessibility of Websites and Mobile Applications Act and Directive 2016/2102 of the European Parliament and of the Council.

This accessibility statement refers to the Interreg Slovenia-Hungary website 2021-2027, which is managed by the Managing Authority/Joint Secretariat of the programme.

A range of accessibility services

The website allows you to:

- choosing a color scheme,
- appropriate color contrasts between the text and the background,
- font selection (user with dyslexia has the option to switch between serif and non-serif font),
- choice of font size,
- conversion of text to speech.

Compliance rate

The website is partially compliant with the Act on the Accessibility of Websites and Mobile Applications due to the exceptions listed below.

Inaccessible content

The content listed below is (potentially) not accessible due to a disproportionate burden:

- Content published before 23 September 2018, which is potentially inaccessible, is considered to be a disproportionate burden, as it is older content that is largely irrelevant to users seeking information on current and future calls for proposals and on ongoing activities and projects,
- Jems – the electronic monitoring system is intended for the submission of projects to a public call and for reporting and monitoring of projects and programmes. Possible adaptations of the Jems online system would impose a disproportionate burden on MCRD and would significantly increase the risk of difficulties in ensuring the smooth functioning of the system.
